PROTECTED B / PROTÉGÉ B

Lisa and Mike:

We will flesh this out in a bit more detail tomorrow morning, but for now:

Track 1:

4. TC will amplify its ongoing work to immediately provide info/intel to the GOC (or relevant partner) particularly as it relates to real or potential impacts on critical transportation infrastructure or trade corridor.

5. Tow trucks: See attached draft tow truck/vehicle removal strategy. This is in active development now with support of PS, RCMP, and PSPC. We expect this to crystalize over the coming days, including as a result of an upcoming FPT meeting organized by PS. Actively engaged with Alberta bilaterally as well.

6. Critical Infra. (further to Dom's comment). Beyond the list, engaging with the operators of same to ensure their safety and security plans and capacity are in place proactively rather than solely reactively.

7. Consequences: Michael is going to speak with Rob about leading this work, but TC has compiled the attached strategic enforcement strategy (you've all seen). We are continuing to develop this in light of Ontario's newly ratified authorities.

9. FPT. TC has actively worked with PT Transportation partners and will bring these ADMs to the PS organized FPT call early next week. Consistency of messaging is key here.

Hopefully this is helpful

Kevin

Subject: PS - IRG table inputs

Lisa, Mike,

For the purposes of staying on top of things using the “IRG tracker” as my guide, not clear whether Rob Stewart is feeding documents in, but as far as PS items here is where things stand from my perspective:

where PS is identified as leading or supporting:

- For **Track 1 – item 3** - Establish a mandate and terms for a potential lead federal negotiator - Sounds like you are expecting “engagement inputs” from PS imminently. I have no sight on this – Rob is managing this himself (he just mentioned on Min call that he has sent something to Min Mendicino for approval), and will have shared/or will share things on his level (directly to Shawn or NSIA?).
- For **Track 1 – item 4** s.38 [REDACTED] – I think GOC is supporting here (as per Martin Green’s intervention at ADM NS ops call, there remain challenges). Would need to get feedback on whether GOC twice daily reporting is improving intel picture. I note RCMP has their own system via BBM that is shared at DM levels that Rob forwards to me 6-7 times a day, PCO-IAS preparing a piece on what is happening in 27 other countries.
- For **Track 1 – item 6** – attached is the state of the document we have pulled together (with inputs from CBSA and TC). I heard John O has been flagging his inputs to NSIA, but I believe we are lead and this is where we have compiled the info.
- For **Track 1 – item 7** - Elaborate on potential consequences for protestors. This is a TC lead. Am told Michael Keenan calling Rob Stewart on this later today. I think we are supportive (Talal and I are staying in touch) but this is for TC to provide inputs and updates.
- For **Track1 – item 8** – Explore potential immigrations measures - just to flag DHS has reached out to me again, and I am arranging a call with them, IRCC and CBSA likely tomorrow.
- For **Track1 – item 9** we are not identified as supporting but Talal’s FPT table is helping here.
- For all **Track2** items... I have pulled together some folks to come up with “creative ideas” as per a task from my DM this morning. Not exactly the scenario planning piece as articulated by Clerk at end of DMOC. Jeffrey H has sent out a helpful email thread so we’ll get going supporting that.

Happy to answer any questions.

Dom

P.S. for **Track 1 – item 2** that is a RCMP lead and trust they are providing updates accordingly.
